DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3, drawn to a method of identifying an agonist or antagonist of a mammalian SP168 receptor, classified in class 435, subclass 7.1.
- II. Claims 4-7, drawn to an agonist or antagonist of the mammalian SP168 receptor and pharmaceutical compositions, classified in class 514, subclass 2.
- III. Claims 8-11, drawn to a method of treating a medical condition caused or mediated by a mammalian SP168 receptor, classified in class 514, subclass 2.

The inventions are distinct, each from the other, for the following reasons:

Inventions II and III are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product of invention I can be used in screening assays.

Inventions I and III are independent and distinct, each from the other, because the methods are practiced with materially different process steps for materially different purposes and each method requires a non-coextensive search because of the different modes of operation, process steps and goals.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

2. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement to be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jegatheesan Seharaseyon whose telephone number is 703-305-1112. The examiner can normally be reached on M-F: 8:30-4:30.
